Dear Mr Pirk

You recently attended an appointment with us and I have now received the results back. Please find these enclosed.

In Centre | DL8L Well Person Profile plus HDL Cholesterol, LDL Cholesterol and Non-HDL Cholesterol : Your haemoglobin is just below the normal range (129) - please share this result with your NHS GP who will be able to compare this with previous readings and arrange repeat testing as appropriate.

Your immune white cell count is satisfactory.

The ESR and CRP, which are both markers of inflammation, are normal and this is very reassuring.

One of your liver function tests (aspartate transaminase) is raised at 50 - the other liver function tests are normal. Again please share this result with your NHS GP to compare with previous readings and arrange repeat testing as appropriate.

The kidney function test is satisfactory.

Ferritin and calcium levels are normal.

Your vitamin D is very low at 22 - please contact your NHS GP who will be able to prescribe high dose vitamin D

supplements and monitor this as appropriate.

The cholesterol profile and diabetic screen are both normal.

B12F Vitamin B12 & Red Cell Folate (TDL) :

Your folate level is normal.

The vitamin B12 is high - this can be due to taking vitamin B12 supplements in some cases. Again please share this result with your NHS GP to compare with previous readings and arrange repeat testing as appropriate.

Self Collect | Free T3 (Self-collect) :

The T3 is low, but the TSH and T4 are within normal ranges. Levels can fluctuate and, in the first instance, we would advise repeating the test in a few weeks to re-check the T3 level. Please contact your NHS GP to arrange this.

Self Collect | Luteinising Hormone (LH) (Self-collect) :

LH level is normal.

Self Collect | FSH (Self-collect) :

FSH level is normal.

Self Collect | C Reactive Protein (Self-collect) :

The CRP, which is a marker of inflammation, is normal.

Haematology

Result Name	Result Value	Result Units	Reference Range	Status
-------------	--------------	--------------	-----------------	--------

FULL BLOOD COUNT

HAEMOGLOBIN (g/L)	129	g/L	130 - 170	L
RED CELL COUNT	3.87	$\times 10^{12}/L$	4.40 - 5.80	L
MCV	94.1	fL	80 - 99	
MCH	33.3	pg	27.0 - 33.5	

Please note new reference range.

RDW	12.1	-	11.5 - 15.0	
PLATELET COUNT	212	$\times 10^9/L$	150 - 400	
MPV	9.7	fL	7 - 13	
WHITE CELL COUNT	3.73	$\times 10^9/L$	3.0 - 10.0	
Neutrophils	57.7% 2.15	$\times 10^9/L$	2.0 - 7.5	

Lymphocytes	31.6% 1.18	$\times 10^9/L$	1.2 - 3.65	L
Monocytes	7.5% 0.28	$\times 10^9/L$	0.2 - 1.0	
Eosinophils	1.6% 0.06	$\times 10^9/L$	0.0 - 0.4	
Basophils	1.6% 0.06	$\times 10^9/L$	0.0 - 0.1	

B12 + RCF

HCT	0.364	—	0.37 - 0.50	L
MCHC (g/L)	354	g/L	300 - 350	H
Active B12	>256.0	pmol/L	25.1 - 165.0	H
Red cell folate	638	nmol/L	340 - 1474.7	

<340 nmol/L is associated with folate deficiency.

ERYTHROCYTE SEDIMENT RATE

ESR	5	mm/hr	1 - 20	
-----	---	-------	--------	--

Note ref range raised in patients over 40

Biochemistry

Result Name	Result Value	Result Units	Reference Range	Status
-------------	--------------	--------------	-----------------	--------

UREA AND ELECTROLYTES

SODIUM	138	mmol/L	135 - 145	
POTASSIUM	4.0	mmol/L	3.5 - 5.1	
CHLORIDE	100	mmol/L	98 - 107	
BICARBONATE	18	mmol/L	22 - 29	L
UREA	13.6	mmol/L	1.7 - 8.3	H
CREATININE	61	umol/L	59 - 104	

NEW BIOCHEMISTRY - TDL

BILIRUBIN	11	umol/L	0 - 20	
ALKALINE PHOSPHATASE	60	IU/L	40 - 129	

ASPARTATE TRANSFERASE	50	IU/L	0 - 37	H
ALANINE TRANSFERASE	44	IU/L	10 - 50	
GAMMA GT	34	IU/L	10 - 71	
TOTAL PROTEIN	71	g/L	63 - 83	
GLOBULIN	25	g/L	19 - 35	
MAGNESIUM	0.81	mmol/L	0.60 - 1.00	
PHOSPHATE	0.96	mmol/L	0.87 - 1.45	
URIC ACID	240	umol/L	266 - 474	L
RANDOM BLOOD GLUCOSE (FL)	No FL/ox sample received.	mmol/L	-	
TRIGLYCERIDES	1.0	mmol/L	< 2.3	
CHOLESTEROL	4.0	mmol/L	Optimum <5.0	
IRON	13.7	umol/L	10.6 - 28.3	
T.I.B.C	46	umol/L	41 - 77	
TRANSFERRIN SATURATION	30	%	20 - 55	

CORRECTED CALCIUM

ALBUMIN	46	g/L	34 - 50	
CALCIUM	2.34	mmol/L	2.20 - 2.60	
Corrected Calcium	2.33	mmol/L	2.20 - 2.60	

HDL CHOLESTEROL

HDL CHOLESTEROL	1.5	mmol/L	0.9 - 1.5	
HDL % of total	38	%	20 and over	
LDL CHOLESTEROL	2.0	mmol/L	Up to 3.0	

FERRITIN

FERRITIN	134	ug/L	30 - 400	
----------	-----	------	----------	--

C REACTIVE PROTEIN

C Reactive protein	<0.6	mg/L	<5.0	
--------------------	------	------	------	--

HBA1C - GLYCOSYLATED HB

Haemoglobin A1c	5.3	%	4.0 - 6.0	
HbA1c (mmol/mol)	34	mmol/mol	20 - 41	

Endocrinology

Result Name	Result Value	Result Units	Reference Range	Status
-------------	--------------	--------------	-----------------	--------

THYROID STIMULATING HORM

THYROID STIMULATING HORMONE	1.42	mIU/L	0.27 - 4.2	
-----------------------------	------	-------	------------	--

FREE T4

FREE THYROXINE	14.2	pmol/l	12.0 - 22.0	
----------------	------	--------	-------------	--

FREE T3

FREE T3	2.7	pmol/L	3.1 - 6.8	L
---------	-----	--------	-----------	---

FSH

FOLLICLE STIM. HORMONE	4.3	IU/L	1.5 - 12.4	
------------------------	-----	------	------------	--

LUTEINISING HORMONE

LUTEINISING HORMONE	3.1	IU/L	1.7 - 8.6	
---------------------	-----	------	-----------	--

VITAMIN D

25 OH Vitamin D	22	nmol/L	50 - 200	L
-----------------	----	--------	----------	---

Interpretation of results:

Deficient <25 nmol/L

Insufficient 25 - 49 nmol/L

Normal Range 50 - 200 nmol/L

Consider reducing dose >200 nmol/L

Special Pathology

Result Name	Result Value	Result Units	Reference Range
-------------	--------------	--------------	-----------------

HDL CHOLESTEROL

Non-HDL Cholesterol	2.5	mmol/L	< 3.9
---------------------	-----	--------	-------

Note additional reporting of non-HDL cholesterol.

Other

Result Name	Result Value	Result Units
-------------	--------------	--------------

UREA AND ELECTROLYTES

eGFR (CKD-EPI)	>90	.
----------------	-----	---

*Adjusting eGFR for ethnicity is no longer advised
as per NICE CKD guidelines.
Note: creatinine measured using enzymatic method
e/f 09.05.23*

If your test is an antibody or antigen test for **Covid-19** then please review the document library (on the left of the screen) to read further information about your result and what it means.

If you had a Covid-19 PCR (self-collected swab) test:

A positive result means you are currently infected with Covid-19. You and your household must self-isolate as per government guidelines.

A negative result means we did not detect the virus that causes Covid-19 on the swab taken. If you have symptoms you must continue to isolate as per government guidelines. Please continue to follow government guidance on social distancing.

If you had a Covid-19 Antibody (blood test in our Centre) test:

A positive result confirms that you have previously been infected with Covid-19. However, this does **not** mean that you immune from catching Covid-19 again.

A negative result means we did not find evidence in your blood of previous infection with Covid-19. There may be some individuals who get a negative result despite previously being infected.

Yours sincerely

Hiren Patel
